# Cloud Based Smart Security Platform

SECU365 DESIGNED FOR

Residential | Commercial

# Secu365 For Residential

## One unified security platform

A seamless integration of access control, video, sensors and intercom in one intuitive interface.

## Your body is your ID

With the latest biometric technologies such as fingerprint and facial recognition, no matter the residents, tenants or the property managers, you can easily access your own private house or any common spaces like the pool, gym, lounge and more all without carrying a traditional set of keys.

## Web and App flexible management

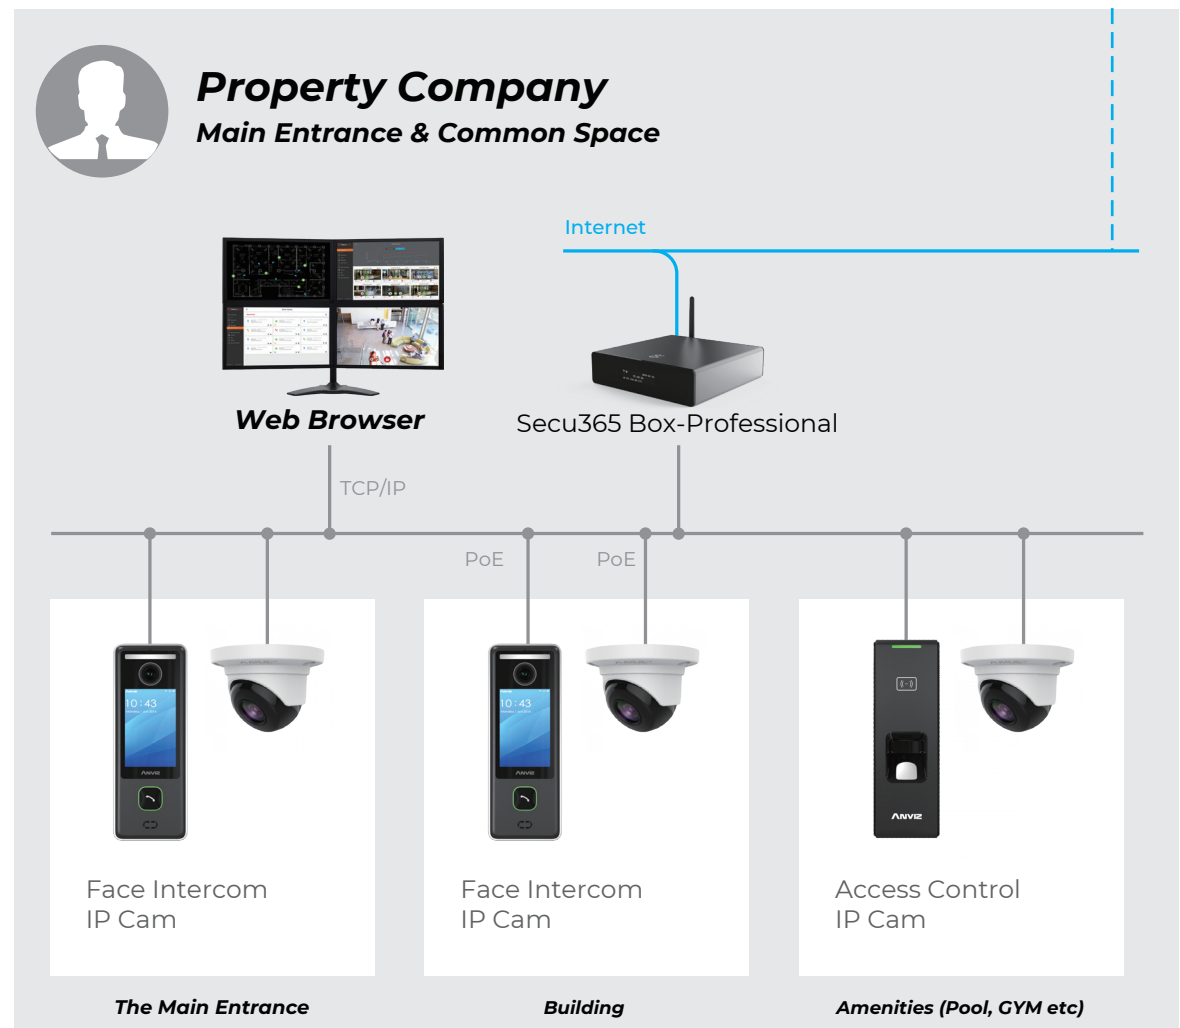

Secu365 uses flexible deployment, you can use both the local web browser and remote mobile APP to manage the system.

## Your home on your phone

Residents can manage their entire smart home with Secu365 app. They can use this unified platform to check in anytime, and easily control everything from anywhere.

## Main Entrance

+

FHD IP Camera

Face Intercom

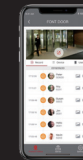

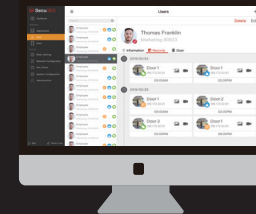

The face intercom and IP cameras will protect all entrance and public area, and all the residents, tenants and visitors can be managed and protected by Secu365.

# Residential Areas

Each private resident's house can be protected easily by the smart locks which link with the FHD IP cameras.

## Web Browser

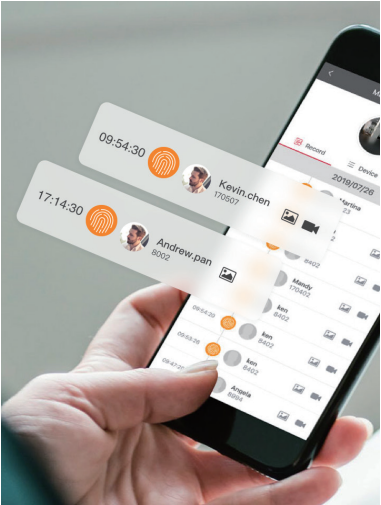

Access to system by any local PC

## Mobile App

Remote access to system by any mobile app.

# For Residents

Residents can get instant notification when anyone entry and can also open the door for them remotely.

When you get back to the apartment

When you go home

When you get back to the building

## For Visitors

Visitors can realize one click call to mobile and the property management people or the residents can remote open the door for their own visitors.

# For Property Company

Property company can manage every door digitally from a powerful web-based access platform.

## E-map

One view for all secu spots

## Event center

Control all emergency events

## Dashboard

Whole system control hub

## Video monitoring

Clear to view key secu spots

In Property Management Center, Secu365 will be shown on Web, and all the smart terminals in the main entrance, public areas, entrance of the buildings will be managed and displayed on the web, the management team can easily control all the safety issue, including person detection alerts, visitor video calls, normal residents entry records, etc.

# Video Protection

The outdoor areas will be protected by the FHD cameras and the property company can easily get live view anytime and also will not miss any emergency alert for person detection event.

# Secu365 Boxes

## Professional

Secu365 Box-Professional is a powerful, web-based central controller to manage and link all smart edge terminals. The highly salable system supports over 32 secu spots and up to 64 terminals. it can be managed by a local web-server or by the App through link to cloud.

4xPoE IEEE802.3af

100K Text Logs

20K Video Clips

64 Terminals

## Standard

Secu365 Box-Standard is designed for private home and small areas which supports up to 32 terminals. it can be connected to a router by the LAN or Wi-Fi and easily operate through the mobile app.

LAN/Wi-Fi/Sub 1G

50K Text Logs

20K Video Clips

32 Terminals

## Essential

Secu365 Box-Essential is a easily, light edge controller designed for private home and small areas which supports up to 16 terminals. it can be connected to a router by the LAN and easily operate through the mobile app.

LAN/Sub 1G

50K Text Logs

20K Video Clips

16 Terminals

# Face Intercom

## M8

Face Intercom-M8 unit ensures a less than 0.5 second quick recognition time and one click remote calling. You can remotely grant for your visitors easy entry through the App.

### Live Face

## Secu365 Box-Professional

- Dual core 1.0G CPU and embedded Linux system
- TCP/IP, Optional Sub 1G
- 4 ports PoE output (IEEE802.3af 12.95W)
  - Up to 10,000 users
  - Up to 20,000 videos clips
  - Up to 100,000 text logs
- In-build Web server
- Up to 64 terminals connection
- Power input DC48V 1.5A
- Working temperature: -10°C to 55°C
- Working humidity: 10% to 90%

## Secu365 Box-Standard

- Dual core 1.0G CPU and embedded Linux system
- TCP/IP, Wi-Fi (Optional Sub 1G)
  - Up to 3,000 users
  - Up to 20,000 videos clips
  - Up to 50,000 text logs
- In-build Web server
- Up to 32 terminals connection
- Power input DC12V 1.5A
- Working temperature: -10°C to 55°C
- Working humidity: 10% to 90%

## Secu365 Box-Essential

- Dual core 1.0G CPU and embedded Linux system
- TCP/IP & Sub 1G
  - Up to 500 users
  - Up to 20,000 videos clips
  - Up to 50,000 text logs
- In-build Web server
- Up to 16 terminals connection
- Power input DC12V 1.5A
- Working temperature: -10°C to 55°C
- Working humidity: 10% to 90%

## EasyView

- 2M Pixel Full HD
- 1/2.7" CMOS 4mm/F1.2 lens
- H.265+, smart stream
- 0.01Lux, 30fps (1920x1080, 704x576),
- 25m IR, IR Shield Cover
- BLC, DWDR
- Motion Detection, Person Detection
- PoE/DC12V

## Combo-365( Optional Gateway )

- Sub 1G (gateway required)
- Max 500 users
- Hardware type: Latch (Optional Deadbolt)
- Working voltage: 3V (2 x Alkaline AA batteries)
- Working temperature:
  - Outside lock body: -4 °F (-20 °C) to 149 °F (65 °C)
  - Inside lock body: 14 °F (-10 °C) to 131 °F (55 °C)
- Reversible handle
- Up to 1 year (8000 times access) battery lifetime

## M8

- 3,000 Users, 3,000 Cards, 100,000 Records
- Face Identification
- Energy Saving Auto Wake/Sleep
- Voice and LED Prompt
- 4.3" HD TFT Touch Screen
- USB host
- WiFi, TCP/IP, POE Connectivity
- Relay Out, Wiegand Out
- Webserver
